

# VI<sup>th</sup> National Crystallographic Symposium with international participation

*Bulgarian Academy of Sciences, Grand Hall,  
Sofia, October 05–07, 2016*

Dear Colleagues and Friends,

On behalf of the Organizing Committee, we are pleased to invite you to participate in the VI<sup>th</sup> National Crystallographic Symposium, NCS-2016. This is the most important event organized under the auspices of the Bulgarian Crystallographic Society (BCS) in 2016.

We look forward to seeing you in Sofia.

## Topics:

- Theoretical and fundamental crystallography,
- Molecular and mathematical modeling in Crystallography,
- Structure properties Relationships
- Defects, Microstructures and Textures,
- Crystal Growth and crystallization,
- Powder diffraction methods and techniques
- Electron scattering and diffraction,
- Spectroscopic methods in Crystallography
- Chemical Crystallography,
- Macromolecular Crystallography,
- Nano and Micro sized Materials,
- Micro- and meso- porous materials,
- Biocompatible Materials,
- Minerals and technogenic materials structures and properties,
- Experimental Techniques and Equipment.

Заявки за участие на млади учени (до 35 г.) за освобождаване от Такса правоучастие ще се приемат до 27 юни 2016 г. на адрес [ncs2016@bgcryst.com](mailto:ncs2016@bgcryst.com), за повече информация:

**Current information:**

<http://bgcryst.com/symp16>

**Deadline for:**

**Abstracts submission: 05 September, 2016**
